

Adobe Dreamweaver CS5 Advanced

Course length

1 day

Why come on this course?

In this course you will develop professional-looking web pages using the Adobe Dreamweaver CS5 application.

Who is it for?

This course is intended for web developers, designers, and administrators who are familiar with the basic tools and features of Adobe Dreamweaver CS5 and want to expand on existing knowledge to gain intermediate to advanced skills for creating and maintaining more robust interactive websites. You should first attend the Adobe Dreamweaver CS5 Level 1 course or have equivalent knowledge.

What will I learn?

By the end of this course you will know how to:

- Work in Code view and use coding tools and features available in Adobe Dreamweaver CS5
- Format web pages using advanced CSS techniques
- Work with AP elements
- Work with Spry elements
- Create and validate forms
- Integrate external files with Dreamweaver

Course style

The course will be highly interactive, encouraging participation and making use of exercises. There will be the opportunity for skills practice and review in each section.

Course materials

Course manuals are provided to support the topics covered. Certificates of attendance will be presented to each delegate after the training has been completed.

Course contents
