

Adobe Dreamweaver CS5 Introduction

Course length

1 day

Why come on this course?

In this course you will learn how to design, build and upload a website.

Who is it for?

This course is designed for novice web designers, web developers, website designers, and graphic artists with some programming background who need to build simple websites and want to utilise the features of Adobe Dreamweaver CS5.

You should be familiar with the basics functions of a Windows operating system, be able to use a web browser (Internet Explorer or similar). Knowledge of HTML, XHTML and CSS would be an advantage, but is not mandatory.

What will I learn?

By the end of this course you will:

- Identify basic web design concepts
- Customise the Adobe Dreamweaver CS5 interface
- Build a website
- Design web pages
- Create reusable site assets
- Work with different types of links
- Upload a website

Course style

The course will be highly interactive, encouraging participation and making use of exercises. There will be the opportunity for skills practice and review in each section.

Course materials

Course manuals are provided to support the topics covered. Certificates of attendance will be presented to each delegate after the training has been completed.
