

Adobe Illustrator CS5 Introduction

Course length

1 day

Why come on this course?

In this course you will learn how to use Adobe Illustrator CS5 to create illustrations that include graphics and text.

Who is it for?

This course is designed for designers, publishers, pre-press professionals, marketing communications professionals, or people switching to a design job or taking on design responsibilities, who need to use Illustrator to create illustrations, logos, advertisements or other graphic documents. You should be familiar with the basic functions of Windows. Familiarity with basic design terminology, such as palettes, colour modes, shapes, text and paths, is highly recommended.

What will I learn?

By the end of this course you will:

- Navigate around the Adobe Illustrator CS5 application
- Create shapes in a document
- Create custom paths
- Work with text in an Illustrator document
- Work with objects
- Enhance documents
- Proof documents to make them more accurate
- Save images for web and print

Course style

The course will be highly interactive, encouraging participation and making use of exercises. There will be the opportunity for skills practice and review in each section.

Course materials

Course manuals are provided to support the topics covered. Certificates of attendance will be presented to each delegate after the training has been completed.
